Mr. Gary Campbell
Aloha Light & Design, Inc.
Kailua-Kona, Hawaii

Dear Gary,

In the 7 years doing business together you have help me out in so many ways. With your real concern for our projects and our clients wishes. So many times you dropped what you where doing and came right out to the project to bring us a light fixture or met with the client about something special they had in mind.

You help save our clients many thousand of dollars, offering that different lighting options and storing the fixtures for us saving us the expense of having to store them on site.

If any of your prospective clients or design professionals would like to contact me for a reference about you or your business, please have them give me a call and I will be happy to let them know what they can expect from you and Aloha Light & Design

Sincerely,

Mark Nicholson
